### APPLICABLE REGULATION

**Article 10.2.5** ☒ *2024 FIA World Endurance Championship Sporting Regulations*

### DECISION

*To cope with the implementation of the ~~Hypercar~~ Hyperpole qualifying session in FIA WEC, the WEC Committee would like to clarify article 10.2.5 as follows (taking into consideration #D07):*

**10.2.5 End of sessions and Parc Fermé**

<u>At the end of the first session of qualifying</u>
Cars that will not be eligible for Hyperpole will be placed under *Parc Fermé*.
Those cars must go inside their garage, except those which must proceed to scrutineering.
Cars eligible for Hyperpole are forbidden to go inside their garage et will not be placed under *Parc Fermé*.

<u>At the end of the Hyperpole qualifying session</u>
Cars that participated in Hyperpole will be placed under *Parc Fermé*.
Those cars must go inside their garage, except those which must proceed to scrutineering.

<u>For all cars under Parc Fermé regulations</u>
It is strictly forbidden to lift their car to go inside their garage or to go into the scrutineering area.
Only for the cars which are in their garage, teams are allowed only to check tyre pressure, tyre temperature and remove the data logger USB sticks, and the Driver may exit the car. No other checks may be completed.
One mechanic of each team may enter the *Parc Fermé* in order to connect or disconnect an additional power supply to run internal cooling units or to place external cooling devices around the car in order to prevent damage, as a proper cool-down must be carried out. It will also be authorised to proceed with any work that is inherent to a safety procedure on hybrid cars. In no case are further works or installations of any kind permitted.

Lifting of the *Parc Fermé* rules will be confirmed to the Competitors on the orders of Race Control.
