HOW ARE THE MASTERS RANKINGS ESTABLISHED?

4 individual classifications

A ranking will be established for each category, with medals awarded to the first 3.

Three chances are given to each driver (3 race heats on Sunday).

The best time on a climb is decisive for the final ranking.

1 ranking for the Nations

A nations ranking will be established at the end of race day. Each country has designated 4 drivers to represent them in the competition.

To balance the chances of the countries, the Nations Cup ranking is based on the consistency of the drivers.

The calculation index for the classification will be based on the difference between the times of two races by each of the nominated drivers – and the winning team will be the one that achieves the smallest aggregated time difference between its three best drivers.

COMO FUNCIONA O HILL CLIMB MASTERS?

4 Classificações Individuais

Um ranking será estabelecido para cada categoria, com medalhas concedidas às 3 primeiras posições. Três chances são dadas a cada piloto (3 subidas no domingo). O melhor tempo das 3 subidas será decisivo para a classificação final.

1 Classificação para as Nações

Um ranking de nações será estabelecido no final do dia de corridas. Cada país designou 4 pilotos para representá-los na competição coletiva.

Para equilibrar as hipóteses dos países, o ranking da Taça das Nações é baseado na consistência dos pilotos.

O método de cálculo da classificação coletiva será baseado na diferença entre os tempos de duas corridas de cada um dos pilotos designados - e a equipa vencedora será aquela que obtiver a menor diferença de tempo agregado entre os 3 melhores pilotos.
