Introduction

Under the aegis of the FIA, in close cooperation with Macau GP, the objective of setting up the FIA GT World Cup is to create a showcase for GT manufacturers which will be the highlight of the season thanks to an exclusive format, attractive for drivers, generating considerable media coverage and a strong impact for the makes. FIA GT World Cup will become a reference event for GT drivers or manufacturers – an event that absolutely must feature among their record of achievement.

The philosophy of this World Cup must be that of an exclusive and exceptional event. For this, the choice of the attractive and mythic venue of Macau enables manufacturers to benefit from the extraordinary image of the event while at the same time attracting prestigious drivers, the very essence of the discipline.

For the FIA, the creation of a GT World Cup is a way of harmonising all GT championships taking place across the world, since it is imperative to contest a series recognised by the FIA and based on the FIA technical regulations in order to be eligible for qualification to the GT World Cup.
