Subject :	FIA Standard 8865-2015 test clarification		

Dear Sir or Madam,

We hereby inform you that the FIA has published an update of FIA Standard 8865-2015 for plumbed-in and hand-held fire extinguisher systems, which can be found on the FIA website at the following link: <https://www.fia.com/regulation/category/762>.

This update includes clarifications on the test procedures that were already being applied, but were not reflected in the standard. It has been decided to incorporate them into the standard in order to improve the homogeneity of results when considering potential new test houses.

We remain at your disposal for any further information you may require.

Yours faithfully,
Nuria Encinas
