

DECISION OF THE ENDURANCE COMMITTEE

To: Teams Manufacturers
Category: LM P1 LM P2 LM GTE Pro LM GTE Am
Decision N°: 15-0024-All categories
Date: 04/06/2015
Re: Rain lights

Mission concerned

Article: 18.2.1 of the FIA International Sporting Code

Decision

After having seen the rain lights under rain conditions during LE MANS Test Day on the LMP cars, we feel that the flashing mode is an improvement for visibility.

Therefore, we would like to implement from 24 HEURES DU MANS event onwards, that **all cars** have all their rain lights flashing at all times (no difference on braking).

All rain lights should have a flashing frequency on 4Hz (0.125sec ON followed by 0.125sec OFF).

Period of validity/application of the decision

This decision comes into effect:

- with immediate application
- from:
- from the following event : **24 HEURES DU MANS 2015**

And is applicable:

- until further notice
- for the above-mentioned event(s) only
