## **BULLETIN 2 – Technical Regulations Article 7.2**

In accordance with Article 1.3 a of the FIA Formula 2 Sporting Regulations, please find below a modification to Article 7.2 of the FIA Formula 2 Technical Regulations.

### **Article 7.2**

**Non-liquid cooling agents which use latent heat of evaporation, such as dry-ice are forbidden. ~~They may be used, but must only be added inside the left hand radiator duct between the radiator screen and the front face of the radiator itself. Any design or construction the purpose of which is to hold non-liquid cooling agents anywhere else on the car is forbidden.~~**

**Non-liquid cooling agents within external devices which are attached to the car for cooling purposes only when it is stationary are permissible.**

**~~It is the Competitors responsibility to ensure that non-liquid cooling agents are contained within the above defined position when the car is running on track.~~**

**Pierre-Alain Michot**  
Director of Operations  
F2 Promoter

**Loic Bacqueline**  
Chairman of the Stewards  
FIA F2

**Florian Bartsch**  
Technical Delegate  
FIA F2
