To	The Stewards	Date	13 April 2025
		Time	21:16

Technical Delegate's Report

The skid wear of car number 27 was checked.

The rearmost skid was measured according to the team's legality documents submission in accordance with TD039 L, item 1.2 b) i). Measurements were taken along the stiffness compliant area at three different points of the periphery (inner arc). The recorded measurement were 8.4 mm (LHS), 8.5 mm (car centerline) and 8.4 mm (RHS).

As this is less than the 9 mm minimum thickness required by TR Article 3.5.9 e), I am referring this matter to the stewards for their consideration.

Jo Bauer

The FIA Formula One Technical Delegate
